

Dedicated to quality

Seeds, consultancy and service – RAPOOL offers optimum quality – around the clock, one-stop solution.

“We give of our best”

RAPOOL makes no compromises when it comes to quality: whether it comes down to seed production and optimum seed treatment or the efficient delivery of certified seed. Extensive advice at conferences, field days, on site, and of course on the internet – these are all part of our exclusive service. Growers rightly expect something special from RAPOOL.

German Quality Worldwide

The standard that RAPOOL sets in Germany also apply worldwide to our subsidiaries. Top quality and expertise are our global priorities. All of the RAPOOL advisors are oilseed rape professionals. They know the local situation and the special conditions in the particular countries and offer expert advice on site in the native language.
